

In April 2011, D+H acquired Mortgagebot LLC, the industry leader in web-based mortgage origination solutions. We welcome the talented Mortgagebot team to the D+H family.

Serving more than 1,000 banks and credit unions across the United States, Mortgagebot is leading the industry by providing the unique, award-winning **PowerSite** suite of integrated point-of-sale (IPOS) solutions for lenders to automate the origination process—application, pricing, approval, and disclosures—across all lending channels: consumer-direct via the Internet; in the branch or call center; or through professional loan officers. Mortgagebot also provides Mortgage Marvel, the award-winning mortgage-shopping service for consumers to access anonymous, real-time rate quotes in seconds from a selection of hundreds of lenders.

Mortgagebot blends deep mortgage experience with innovative SaaS technology to create scalable, easy-to-use, and affordable Web sites for lenders big and small to deliver a superior borrower experience, increase volume, and compete more effectively.

Mortgagebot is proudly named by Forrester Research as one of “2010 Hot Banking Tech Companies to Watch” and “more highly awarded than any other company” by Mortgage Technology magazine.

More information on D+H's newest service offering is available at www.mortgagebot.com.
